THANK YOU FOR CHOOSING OUR PRODUCT!

Before using the device, we kindly ask you to carefully read the entire instruction manual provided. Please pay close attention to any warnings outlined in this manual. It's important to keep this instruction manual easily accessible at all times. If you pass the device to another individual, please ensure to provide them with the manual, as it is an integral part of the product. Please note that certain components of the product may differ from the images presented in catalogues, websites, brochures, etc. As part of our commitment to continually improve our products, the manufacturer reserves the right to modify features and/or components without prior notice.

THANK YOU AGAIN FOR YOUR PURCHASE. WE HOPE YOU ENJOY USING OUR PRODUCT!

DISCLAIMER

Documents are made available without warranty of any kind. They may be updated, altered, expanded, or removed at any time. SkinAct does not warrant or guarantee any of the processes described herein or perform any independent analysis in connection with guidelines provided.

Readers are expressly warned to consider and adopt all safety precautions indicated herein and to avoid all potential hazards. By following the instructions provided, the reader willingly assumes all risks in connection with such instructions.

If the reader has questions about any of the guidelines provided by SkinAct we recommend they contact their nearest Esthetician Training Center to obtain more explicit instruction on Facial Machine Usage.

CORRECT USE OF THE DEVICE

- This product is intended exclusively for professional use in beauty salons or spas.
- It must not be used for any purpose other than its intended function.
- Misuse, including unauthorized modification or operation by untrained individuals, will void the warranty.
- The manufacturer is not liable for damages or injuries caused by misuse or mishandling.

CONTRAINDICATIONS

THE DEVICE SHOULD NOT BE USED ON CLIENTS WITH:

- Pacemakers, metallic implants, or other electronic medical devices.
- Heart conditions or a history of heart disease.
- Pregnancy.
- Inflamed, irritated, or damaged skin.
- Severe acne rosacea or vascular conditions.
- Epilepsy or other seizure disorders.
- Clients undergoing medical treatments or with underlying health conditions must obtain prior clearance from a physician.

PRECAUTIONS

- **Inspect the Device:** Check for any visible damage to the device or its power cable before and after each use.
- **Unplug When Not in Use:** Always disconnect the device from the power source before cleaning, storing, or performing maintenance.
- **Avoid Humidity:** Do not operate the device in bathrooms or other excessively humid environments.
- **Position Cables Safely:** Ensure the power cable is positioned to prevent tripping hazards and is plugged into a grounded socket.
- **Keep Away from Children:** The device and its accessories should be stored securely out of reach.
- **Report Issues Promptly:** If you notice abnormal functioning, contact your distributor or an authorized technician immediately.

SAFETY INSTRUCTIONS

- Plug the device into a properly grounded electrical outlet with the appropriate voltage.
- Do not use the device if it or its power cable is damaged.
- Never touch the device, power plug, or cables with wet hands.
- Avoid attempting to repair or modify the device. Repairs should only be performed by authorized technicians.
- Store the device in a cool, dry place away from direct sunlight and moisture.

Tools

ULTRASONIC: Stimulates the skin tissue with acoustic vibrations. Improves cell membrane and regenerates collagen. Reduces wrinkles and fine lines for younger looking and feeling skin. Ultrasonic also generates frictional heat which accelerates blood circulation and helps muscles to relax. Decomposes cellulite and allows deeper product penetration into the skin.

THE ULTRA SKIN SCRUBBER is an advanced skincare device renowned for its multifunctionality and effectiveness in promoting skin health. In addition to its deep cleansing and exfoliating properties, this versatile device aids in extractions, helping to unclog pores and remove impurities.

MICROCURRENT THERAPY targets the 32 facial muscles that contribute to aging signs like wrinkles and sagging. It works by re-educating these muscles, physically moving them into a more youthful position. Over a series of treatments, muscles adapt to their new contour, promoting a firmer, smoother, and lifted appearance.and helps products to penetrate more deeply.

MAGIC GLOVES Performs the same function as microcurrent while providing a gentle massage.

ULTRASONIC FUNCTION

Ultrasonic waves gently stimulate the skin, promoting collagen and elastin production, the building blocks of youthful skin.

BEFORE TREATMENT

- Cleanse and tone the treatment area using suitable skincare products for your skin type
- Use facial steam for 10 minutes to remove residual product
- Cleanse the skin again to eliminate dirt and debris
- Gently tone the face with a suitable astringent
- Ensure the skin is thoroughly cleansed and apply a generous amount of conductive gel

STARTING TREATMENT

1. Connect the power supply via the rear panel and accessories to the lateral panel.
2. Turn on the POWER button.
3. Adjust intensity using the TIMER
4. Adjust intensity. Start at 0-1 and increase as needed.
5. Select Ultrasonic Wave state (continuous, intermittent, or combined) via the STATE button.
6. Hold the probe firmly and press START/PAUSE.
7. Massage the area with circular motions for 10-15 minutes.
8. After treatment, turn off the device and place the probe in its holder.

A. FACE TREATMENT:

1. Use the larger probe
2. Choose your desired time
3. Choose your desired intensity level
4. Select pulse or continuous wave mode
5. Gently move the probe around your face, avoiding the eye area

Power Adjustments: You can adjust power during treatment. To switch modes, pause, select the new mode, and resume.

B. EYE/SMALL AREAS TREATMENT:

1. Use the smaller probe
2. Choose your desired time
3. Choose your desired intensity level
4. Select pulse or continuous wave mode
5. Gently move the probe around small areas

Power Adjustments: You can adjust power during treatment. To switch modes, pause, select the new mode, and resume.

THIS RESULTS IN:

- Reduced fine lines and wrinkles
- Improved skin tone and texture
- Enhanced blood circulation and lymphatic drainage
- Increased hydration and plumping of the skin
- Deeper penetration of skincare products

CAUTIONS

- Always apply enough conductive gel for ultrasonic treatments.
- Do not use on dry skin or areas of open wounds.
- Avoid using on pregnant individuals or those with pacemakers or heart conditions.
- For sensitive skin, reduce treatment time and use lower intensity.
- Maintain a 1-day minimum rest period between ultrasonic sessions or 7 days when combined with other facial treatments.

MAINTENANCE

- Cleaning: Wipe probes with clean water (not hot) and a soft cloth. Sterilize with appropriate fluid and dry before storage.
- Storage: Store probes safely in their holders. Sterilize before each use.
- Prohibitions: Do not immerse probes in fluid.

SKIN SCRUBBER

The Skin Scrubber is an advanced skincare device designed to deeply cleanse, exfoliate, and rejuvenate the skin. Utilizing ultrasonic vibrations at up to 28,000 vibrations per second, it effectively removes impurities, unclogs pores, and promotes skin health by improving collagen and elastin production.

KEY FEATURES

- **Deep Cleansing:** Softens and expands pores for thorough cleaning.
- **Exfoliation:** Removes dead skin cells and impurities with ease.
- **Extractions:** Helps unclog pores, remove blackheads, and reduce congestion.
- **Product Penetration:** Enhances absorption of serums and moisturizers.
- **Skin Rejuvenation:** Stimulates collagen and elastin production for firmer, younger-looking skin.
- **Easy Maintenance:** Simple to clean, with no expensive parts to replace.

SPECIFICATIONS

- **Ultrasonic Frequency:** 28,000 vibrations per second.
- **Blade Positions:**
  - Downward position: Cleansing and exfoliation.
  - Upward position: Product penetration and massage.
- **Design:** Lightweight, portable, and user-friendly.

SPECIFIC PRECAUTIONS

- Avoid use during pregnancy or if you have a pacemaker or other electrical medical devices.
- Do not use on areas with severe skin sensitivity or active skin conditions like eczema or rosacea.
- Start with lower intensity for sensitive skin, gradually increasing as tolerated.

HOW TO USE

Step 1: Cleansing and Exfoliation

- **Cleanse Your Skin:** Begin by thoroughly washing your face with a gentle cleanser to remove any makeup, dirt, or impurities. Pat your skin dry with a clean towel. This ensures a clean base for the treatment and prevents impurities from being pushed deeper into the skin during exfoliation.
- **Apply Toner or Serum:** Spray a light mist of toner or evenly apply a thin layer of serum to your face. These products help keep your skin moist during the exfoliation process, which is essential for the ultrasonic waves to work effectively.
- **Keep the Skin Hydrated:** If the skin begins to dry out during the process, reapply the toner or serum to maintain moisture. Proper hydration not only enhances the device's performance but also ensures a comfortable and smooth treatment experience.

Step 1: Cleansing and Exfoliation

1. **Preparation:**
   - Start with a clean, dry face.
   - Spray toner or apply a serum evenly to keep the skin moist during the process.
2. **Blade Angle:**
   - Hold the blade at a 45-degree angle against the skin.
   - Use the blade in the downward position.
3. **Motion:** Glide the blade slowly over the face in a downward motion.
   - Focus on areas with blackheads or impurities.
   - Pinch blackhead-prone areas lightly with your thumb and index finger for better results.
4. **Results:**
   - Observe impurities and dead skin cells removed onto the blade tip.

Step 2: Product Penetration and Muscle Toning

1. **Preparation:**
   - Apply a thin layer of serum or moisturizer to the face.
2. **Blade Angle:**
   - Flip the blade to the upward position, holding it flat against the skin.
3. **Motion:**
   - Glide the blade upwards across the face.
   - Ensure smooth, gentle motions to avoid pulling the skin.
4. **Effect:**
   - The ultrasonic waves will vaporize the product, creating tiny molecules for deeper absorption.
   - Stimulates collagen and elastin production, leaving skin firmer and rejuvenated.

CAUTIONS AND SAFETY GUIDELINES

GENERAL SAFETY

- Use only on clean, hydrated skin.
- Avoid using on broken, irritated, or inflamed skin.
- Do not use the device on open wounds or active acne cysts.

AFTERCARE

- Apply a calming moisturizer or sunscreen after use.
- Avoid harsh products or exfoliants for at least 24 hours post-treatment.

MAINTENANCE

- Wipe the blade clean with a damp, soft cloth after each use.
- Disinfect the blade with an alcohol-based sterilizer.
- Store the device in a clean, dry place to ensure longevity.

MICROCURRENT FACIAL MACHINE

INTRODUCTION

The Microcurrent Facial Therapy. This advanced device is designed to lift, firm, and rejuvenate facial and body muscles by increasing ATP (Adenosine Triphosphate) and collagen production. Its versatile features, including different attachments and settings, make it an essential tool for achieving vibrant, youthful skin.

HOW MICROCURRENT WORKS

Microcurrent therapy targets the 32 facial muscles that contribute to aging signs like wrinkles and sagging. It works by re-educating these muscles, physically moving them into a more youthful position. Over a series of treatments, muscles adapt to their new contour, promoting a firmer, smoother, and lifted appearance.

BY STIMULATING THE SKIN AND MUSCLES, MICROCURRENT:

- Improves circulation.
- Enhances cell activity.
- Increases collagen and elastin production.

FEATURES AND SPECIFICATIONS

Functions

- **Bio-Lift:** Targets fine facial muscles, especially around the eyes and mouth, for precision lifting.
- **Magic Gloves:** Combines microcurrent stimulation with a relaxing massage.
- **Attachments:** Roller and flat head attachments adapt to different treatment areas.

Frequency Settings

- **Brighten:** 5 KHz for an energizing effect.
- **Water:** 3 KHz for hydration support.

Voltage Output Range

- **Body:** 5.25 – 7.05 V
- **Facial:** 1.9 – 2.68 V
- **Bio:** 0.73 – 14.5 V

Maximum Current Output

- **Body:** 0.68 MA
- **Facial:** 0.25 MA
- **Bio:** 1.433k MA

TREATMENT PROTOCOLS

RECOMMENDED TREATMENT SCHEDULE

Age	Initial Series	Maintenance
20–30	Preventative (as needed).	6–8 weeks.
30–35	4–6 sessions, 1x per week.	Every 6–8 weeks.
35–40	6–10 sessions, 2x per week.	Every 6–8 weeks.
40–50	8–12 sessions, 3x per week initially, then 2x per week.	Every 4–8 weeks.
50–60	12–15 sessions, 3x per week initially, then 2x per week.	Every 4–8 weeks.
60+	15 sessions, 3x per week.	Every 4 weeks.

TREATMENT STEPS

1. **Preparation**
   - Remove all makeup, oils, and dirt from the skin.
   - Apply a conductive gel to the treatment area.

2. **Treatment shutterstock_2450303903**
   - Attach the desired probe (roller or flat head).
   - Select the appropriate frequency and voltage settings.
   - Begin at a low intensity, gradually increasing based on the client's comfort.
   - Glide the probes over the treatment area, lifting and contouring the muscles.

3. **Post-Treatment**
   - Clean the treated area.
   - Apply a hydrating serum or moisturizer.

USING THE ATTACHMENTS

- **Roller and Flat Head Probes**
  Use for larger areas of the face and body to lift and contour.
- **Bio-Lift Attachments**
  Ideal for precise muscle stimulation around the eyes, mouth, and smaller facial areas.
- **Magic Gloves**
  Provides simultaneous microcurrent treatment and gentle massage.

SAFETY GUIDELINES

- **Contraindications:** Do not use on clients with pacemakers, epilepsy, metal implants, open wounds, or during pregnancy.
- **Sensitivity:** Clients with sensitive skin may feel slight tingling, which is normal.
- **Hydration:** Ensure the client is adequately hydrated to prevent discomfort.
- **Caution:** Never apply the device over the eyes or thyroid.

MAINTENANCE AND CARE

1. Clean all attachments after each use with a soft cloth and disinfectant.
2. Store the device in a cool, dry place.
3. Inspect cords and connections regularly for signs of wear or damage.

SpaandEquipment offers a 1-year limited warranty on most equipment, covering malfunctions and manufacturer defects only (parts only, shipping not included). Warranty is void for improper use, wear & tear, alterations, or lack of professional installation for plumbing & electrical equipment (proof required). Customers are responsible for return shipping costs and damage during return shipment voids warranty (ship with insurance).

For details or questions, contact SpaandEquipment.com at 1.800.418.0830.

For further details regarding warranty coverage, please refer to our Warranty Information Policy on our website.
You can find it under the "Return/Shipping/Warranty" section.

SPECIFICATIONS AND TECHNICAL DATA

PRODUCT NAME:
3 In 1 Facial System Ultrasonic, Microcurrent, Skin Scrub Tool (SKU16315)

FUNCTION:
The SkinAct 3 in 1 Facial System provides smoother skin, a firming lift, deep cleansing, and noticeable wrinkle reduction

SPECIFICATIONS:
Ultrasonic: Input Freq: 1 – 3 MHz **Skin Scrubber:** Input Freq: 1 – 3 MHz
Microcurrent: Hertz Signal Freq: Brighten Mode: 5 KHz Water Mode: 3 KHz
Warranty: 1-year limited warranty.
