About This Manual

This manual shall only be used for the reference of operation of this particular model. If the manual is used for other purposes, we will not undertake any according consequences and responsibility.
All information of this manual shall be protected by copyright and shall not be copied and translated in any part of this specification without the written consent of manufacturer.

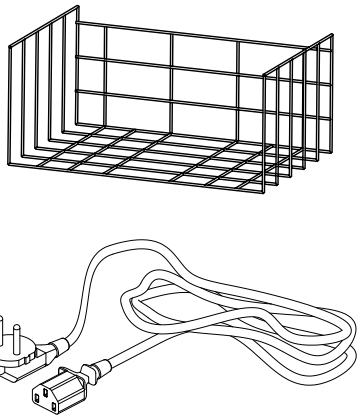

Safety Guidance

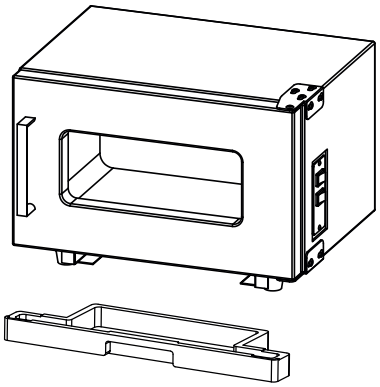

To ensure your correct and safe use of this product, please read all the instructions before use! Please follow all safety precautions!

	Warning!	**Indicates a potentially dangerous situation that, if not avoided, could result in serious loss of life.** • This product is only for beauty practitioners with professional qualifications. • Do not use or store the product in a damp place such as bathroom to avoid malfunction and danger. • Do not use this product near flammable items (e.g., alcohol, thinner, gasoline, nail polish remover, sprays, etc.). • Do not use this product under the following conditions: when the power cord or plug is damaged or gets hot; when the plug in the power socket comes loose. • Do not use wet hands to plug and unplug power cord connectors and use this product. • Please make sure that the working voltage of this product conforms to its rated voltage. • Before use, make sure that the power plug and the power cord connector are fully plugged in, so as not to cause danger. • When not using this product, please turn off the power and pull out the plug. • Please regularly clean the dust accumulated on the power plug and power cord connector to avoid failure of insulation caused by moisture, dust and other factors. • Be sure to use the special power cord assembly for this product. Do not use the power cord assembly on any other appliance. • Do not wrap the power cord around the product, otherwise it may distort and malfunction the power cord. • Keep out of reach of children. Do not allow children to use this product. • Please do not modify, disassemble or repair this product by yourself. If you need to repair it, please contact the manufacturer, agent or professional maintenance personnel to check and repair it, so as not to cause danger. • Please contact distributor, service center or related personal with appropriate skill and experience for repairing if the plug is damaged, in case of any danger.
	Attention!	**Represents a potentially dangerous situation which, if not avoided, can result in general injury to person.** • Operators should pay special attention to the safety of personnel and equipment when using. • If the product is abnormal, please stop using it immediately and contact the manufacturer or dealer for relevant treatment. • This product and related accessories should be handled lightly. • Please properly handle the packaging bag of this product to avoid accidents such as asphyxiation of infants, and keep it out of reach of children.

Package Contents

- These components are subject to change without prior notice.
- Appearance of product may differ from the image.

Instructions of use

- Connect the power supply via the rear panel.
- Open the door and place the towel normally on the towel bracket for sterilizing. Close the door and check that the seals are well connected.
- Press the “POWER” button.
- Once it reaches a constant temperature of 60ºC, you can press “OZONE” to activate the ultraviolet light and ozone function.
- Once the heating and sterilization process has finished, turn off the cabinet and empty the water from the water tray.

Notes

The recommended sterilization time is between 1 and 2 hours.

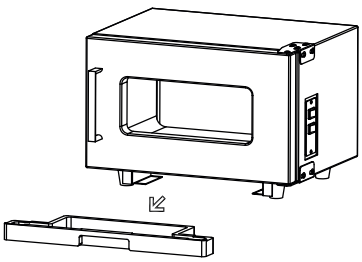

Cautions

Make sure your hands are dry when pressing the “POWER” or “OZONE” switch.

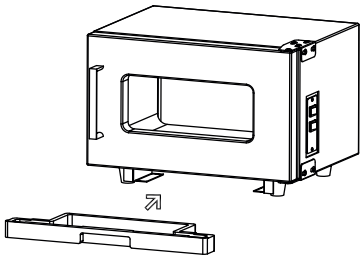

Maintenance

Drain the water from the water tray regularly after operation to maintain the heat of wet towels (it should be drained every day):

- Pull out the water tray.

- Drain all the water.
- Replace the water tray.

- Please keep the inner case dry by wiping up any water using a cloth.
