DISCLAIMER

This product is intended for professional use by trained spa, salon, esthetic, wellness, or other qualified professionals. It must be used only for its intended purpose and in accordance with all instructions, warnings, contraindications, maintenance requirements, and safety guidelines provided in this manual.

The information in this manual is for general product operation and safety reference only. It does not replace professional training, licensing requirements, medical advice, service instructions, applicable laws, or workplace safety rules. Users are responsible for proper training, safe operation, inspection, client screening when applicable, sanitation, maintenance, and compliance with all applicable regulations.

SkinAct/Spa and Equipment does not provide medical advice and does not diagnose, treat, cure, or prevent any disease, medical condition, injury, or skin disorder. Any treatment descriptions, suggested uses, or expected results are for general cosmetic and professional use reference only, and results may vary.

Before each use, inspect the product, power cord, accessories, attachments, moving parts, and related components, as applicable, for damage, looseness, contamination, instability, or abnormal operation. Do not use the product if it appears damaged, defective, improperly assembled, unsafe, or if any component is missing or malfunctioning.

The user assumes full responsibility for proper assembly, installation, operation, client selection when applicable, treatment technique when applicable, cleaning, maintenance, and storage. SkinAct/Spa and Equipment shall not be responsible for injury, property damage, treatment complications, equipment damage, loss of business, or other damages resulting from misuse, improper use, lack of training, failure to follow instructions, unauthorized repairs or modifications, improper maintenance, or use outside the intended purpose.

Do not modify, disassemble, repair, or alter this product unless authorized in writing by SkinAct/Spa and Equipment or performed by an approved service provider. Unauthorized modification, misuse, improper maintenance, or failure to follow this manual may void the warranty.

Product designs, specifications, components, accessories, images, and instructions may vary from the actual product and may be changed or updated without prior notice.

Product Features

The infrared sauna blanket features three independently controlled heating zones for the upper body, waist/abdomen, and legs, allowing the temperature of each area to be customized. Its reinforced, water-resistant construction and compact design make it suitable for professional salons, spas, and wellness practices. The adjustable temperature range is 40–85°C (104–185°F).

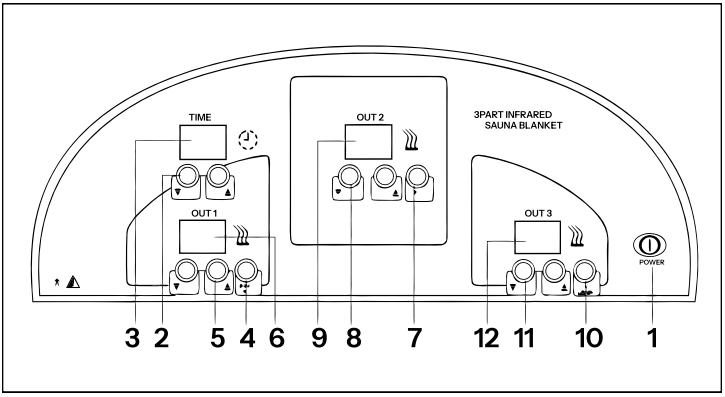

Safety Precautions

- Use only skin-care products intended for use with heat treatments.
- Do not use products containing alcohol, acids, alkalis, or other ingredients that may irritate the skin when heated.
- Avoid applying oils, lotions, creams, or gels unless the product is specifically approved for use with an infrared sauna blanket.
- Stop using the blanket immediately if you experience burning, pain, dizziness, skin irritation, or unusual discomfort.
- After treatment, allow your body to cool gradually and drink water to stay hydrated.

Important Safety Information

- Do not disassemble, modify, or repair the product. All repairs must be performed by qualified service personnel.
- Do not connect, disconnect, or operate the product with wet hands. Keep the power cord, controller, and electrical connections away from water and other liquids.
- Unplug the product immediately and discontinue use if:
- Liquid enters the product.
- You notice smoke, an unusual odor, excessive heat, or abnormal noise.
- The power cord or plug is damaged.
- The product has been dropped or damaged.
- Keep the power cord away from walkways and other areas where it may create a tripping hazard. Do not place objects on the cord.
- Always unplug the product after use. Grasp the plug when disconnecting it; never pull on the power cord.
- Do not insert objects into any opening, socket, or electrical connection. If an object becomes lodged inside, unplug the product and contact qualified service personnel.
- Place the controller and other components on a stable, dry surface to prevent them from falling or becoming damaged.
- Keep these instructions for future reference.

Control Panel Overview

Important: Do not turn on the controller unless the sauna blanket is properly connected and ready for use.

1. Power Button
2. Treatment Time Adjustment Buttons
3. Treatment Time Display

Heating Zone 1 (OUT1)

4. Start/Pause Button
5. Temperature Adjustment Buttons: 40–85°C (104–185°F)
6. Temperature Display

Heating Zone 2 (OUT2)

7. Start/Pause Button
8. Temperature Adjustment Buttons: 40–85°C (104–185°F)
9. Temperature Display

Heating Zone 3 (OUT3)

10. Start/Pause Button
11. Temperature Adjustment Buttons: 40–85°C (104–185°F)
12. Temperature Display

Operating Instructions

1. Connect each sauna blanket cord to its corresponding output port on the controller. Make sure all connections are secure.
2. Inspect the blanket, controller, power cord, and connections for damage before each use.
3. Plug the controller into a properly grounded electrical outlet, then press the Power button. The preset temperature is 50°C (122°F). The current temperature will appear after approximately 10 seconds.
4. Set the desired treatment time and temperature using the adjustment buttons. Begin with a low temperature and increase it gradually only if it remains comfortable. Never use a higher temperature to speed up results.
5. Press the Start/Pause button for each heating zone you wish to activate.
6. Monitor the user throughout the session. Stop immediately if the user experiences burning, pain, dizziness, nausea, difficulty breathing, or unusual discomfort.
7. When the session is complete, turn off the controller and unplug it from the electrical outlet. Allow the blanket to cool completely before cleaning or storing it.

Important Operating Guidelines

1. Wear lightweight cotton clothing or use a clean protective liner between the skin and the blanket.
2. Do not use plastic wrap, oils, lotions, creams, or other skin-care products unless they are specifically approved for use with the sauna blanket.
3. Drink water before and after each session to help prevent dehydration.
4. Never leave the product unattended while it is operating.

Important Maintenance

- Turn off and unplug the sauna blanket before cleaning. Allow it to cool completely.
- Wipe the inside and outside with a soft cloth lightly dampened with water and mild soap.
- Clean and disinfect the blanket between each user.
- Apply cleaning products to the cloth—never spray liquid directly onto the blanket or controller.
- Do not immerse the blanket, controller, cords, plugs, or connectors in water.
- Do not use bleach, alcohol, solvents, abrasive cleaners, or scouring pads.
- Allow the blanket to dry completely before using, folding, or storing it.
- Inspect the blanket, controller, cords, and connectors for damage before each use.
- Store the blanket loosely folded in a cool, dry place away from direct sunlight and sharp objects.
- Do not tightly wrap, twist, pinch, or sharply bend the power cords.
- Do not place heavy objects on top of the blanket during storage.

Troubleshooting

Device Does Not Turn On

Solution: Make sure the power cord is securely connected to the device and a working electrical outlet. Test the outlet with another device. If the device still does not turn on, discontinue use and contact SkinAct.

One Heating Zone Does Not Heat

Solution: Turn off and unplug the device. Make sure the blanket cord is securely connected to the correct output port. Restart the controller and press the zone's Start/Pause button.

Blanket Does Not Become Warm

Solution: Confirm that the desired heating zone is active and that the temperature is set correctly. Increase the temperature gradually and allow several minutes for the blanket to warm.

Blanket Heats Unevenly

Solution: Check all three heating zones. Make sure each required zone is active and set to the desired temperature. Different temperature settings will cause the zones to heat differently.

Temperature Changes During Operation

Solution: Minor temperature changes may occur as the controller cycles the heat to maintain the selected setting. Stop using the product if the temperature becomes excessively hot or unstable.

Controller Shuts Off Unexpectedly

Solution: Check whether the treatment time has ended. Turn off and unplug the product, check all connections, and allow it to cool completely before restarting.

Display Is Blank or Flashing

Solution: Turn off and unplug the controller. Reconnect all cords securely, then restart the controller. If the problem continues, discontinue use and contact SkinAct.

Specifications

Product Name:	Infrared Sauna Blanket
Voltage:	AC 110 V
Frequency:	60 Hz
Power Consumption:	480 W
Dimensions (L × W):	69” × 34”
Net Weight:	20 lb

Warranty Information

The manufacturer/warrantor warrants to the original purchaser that this product will be free from defects in materials and workmanship under normal and proper use for a period of one (1) year from the original date of purchase, unless otherwise stated in writing for a specific product.

This limited warranty applies only to the original purchaser and is not transferable. Proof of purchase may be required to obtain warranty service.

This warranty covers parts and labor required to correct defects in materials or workmanship during the warranty period. At the warrantor's discretion, the product may be repaired, replaced, or substituted with a comparable item or component.

This warranty does not cover damage or defects caused by misuse, abuse, improper assembly, improper installation, unauthorized modification, unauthorized repair, neglect, accident, improper cleaning, use of harsh chemicals, power surges, water or liquid damage, use outside the intended purpose, failure to follow the product manual, or use with parts/accessories not approved by SkinAct.

This warranty does not cover normal wear and tear, cosmetic damage, upholstery wear, stains, discoloration, scratches, dents, wheels/casters, bulbs, glass parts, filters, tips, probes, disposable parts, consumables, or accessories subject to regular replacement unless the defect is determined to be due to a manufacturing issue.

The warrantor shall not be liable for loss of use, loss of time, loss of business, lost revenue, inconvenience, or any indirect, incidental, special, or consequential damages arising from the use of this product or from any defect covered by this warranty.

To request warranty service, contact the dealer or SkinAct customer support. If return service is required, the purchaser may be asked to return the product or the affected component for inspection. The purchaser is responsible for properly packaging the item and prepaying all shipping costs to send the item in for warranty service. If the issue is covered under warranty, repair or replacement will be performed at no charge, subject to the terms of this limited warranty.

This limited warranty is the only written or express warranty provided by the warrantor. No employee, representative, dealer, or third party is authorized to modify or extend this warranty unless confirmed in writing by SkinAct. This warranty gives you specific legal rights, and you may also have other rights, which vary by state or province.
