Product Overview

The SkinAct Slate Metal Cart is a sleek and durable all-metal utility trolley designed for medical, spa, or salon environments. Standing about 33½″ high with a 24″ length and 17″ depth, it features two plastic drawers mounted on a heavy-duty steel frame (each drawer approximately 15″×22″), offering ample organized storage for tools, skincare, or medical supplies. Its clean, industrial slate-tone, non-slip finish ensures both style and easy maintenance, while four smooth, non-stick castors enable effortless mobility between treatment stations. Built to withstand frequent use, the cart balances practicality and professional presentation—ideal for busy settings that require reliable, portable organization.

The cart features premium polyurethane caster wheels designed for smooth, quiet, and floor-safe mobility in professional environments. These durable wheels glide effortlessly across a variety of surfaces, reducing noise and preventing scratches on delicate flooring. Housed in a sleek, matte-black casing with the SkinAct logo, the wheels not only enhance maneuverability but also add a modern, high-end touch to the overall design. Engineered for daily use in spas, salons, and medical settings, they ensure reliable performance and long-lasting stability.
