

SKIN+ACT

SKIN CARE SERUMS

MADE IN THE USA

WWW.SKINACT.COM

4D HYALURONIC ACID

This serum is formulated with four types of active HA, as well as anti-aging peptides, to provide intense hydration and elasticity for your skin.

The peptides work to reduce the appearance of wrinkles and fine lines, while the HA helps to plump and moisturize your skin.

With regular use, you'll see a noticeable improvement in the overall look and feel of your skin.
